Ya'thi Néné Land and Resource Office  
October 2<sup>nd</sup>, 2019

# Ya'thi Néné Land and Resource Office

Participated in a site tour with AJES.

Reviewed the submissions from both Cameco and the CNSC regarding Cameco's request to release 20 Beaverlodge Properties from the current license.

# Ya'thi Néné Land and Resource Office

Completed a technical and legal review.

Conducted engagement sessions with leadership from Uranium City, Camsell Portage, Wollaston Lake, and Stony Rapids and the Chiefs from Fond du Lac, Hatchet Lake, and Black Lake.

# Ya'thi Néné Land and Resource Office

Ya'thi Néné agrees with the request to release the 20 properties from the CNSC licence and amend the Waste Facility Operating License - WFOL-W5-2120.0/2023.

Ya'thi Néné has the following five recommendations.

# Recommendations

1. Provide more than a 30-day period for the submission review from when the CMD is issued to when intervenors have to submit.
2. All Athabasca Basin communities are to be included in discussion and consultation concerning the properties at Beaverlodge.
3. Keep all Athabasca Basin communities informed of future monitoring results from sites transferred to the ICP.

# Recommendations

4. Conduct a human health study on the rates of cancer and health issues related to the mining industry in the Athabasca Basin.

5. Remediate the legacy buildings in Uranium City that were constructed and abandoned by Eldorado Nuclear Limited, now Canada Eldor Inc. (under the federal Crown).

# Closing Remarks

Ya'thi Néné appreciates the opportunity to participate.

Communication between the CNSC, Cameco and Ya'thi Néné has been prompt and professional.

More extensive consultation is required with all Athabasca Basin communities and their members, so their concerns can be better understood and addressed.
