**Subject:** Scope of the EA for Global First Power's proposed SMR at Chalk River.

---

To whom it may concern, The County Sustainability Group endorses the submission by CELA and Dr Ramana which evidences the importance of this issue and the need for thorough and detailed scoping details at this stage of the EA process. However, due to COVID-19, we are not in a position to provide more detailed comments at this time. We accordingly request an extension of this comment period and a suspension of decision-making for this EA. Thank you for your consideration.
