To Whom It May Concern:

Amira Mittermaier, Alejandra Gonzalez Jimenez and Felix Mittermaier express their strong opposition to the licensing renewal for BWXT Inc., located in 1025 Lansdowne Avenue. We are concerned and worried that 53% of all uranium used in Canada is being processed in a heavily populated area and nearby five public schools. Uranium is radioactive. It pollutes the environment and it is a health hazard. The damages created by inhaling uranium's carcinogenic dust particles or dumped in the sewer system can take years to be visible.

Thank you

Alejandra Gonzalez Jimenez
