Philip McMichael
[REDACTED], Peterborough
ON. [REDACTED]

January 24 2020

To Whom it may concern:

I am writing this letter as a concerned citizen of Peterborough, Ontario.

I am opposed to the application of BWXT to manufacture pellets at the GE plant off Monagahn Road.

Here is my major concern:

Over a 5 year period BWXT reports releasing 46 grams of uranium dioxide into the atmosphere at their Toronto facility.

If BWXT begins manufacture of uranium pellets in Peterborough, they expect the same level of radioactive particles released into the atmosphere. It is unacceptable for this company to commence the manufacture of uranium pellets at this site in the middle of our city.

I argue that pellet manufacturing at the BWXT facility in Peterborough, ON does not meet the CNSC mandate and that BWXT's license renewal should not be amended to allow uranium pellet manufacturing as part of their 10 year license renewal .

Signed
Philip McMichael
