**Subject:** Bwxt uranium

Hello,

Please consider this my intervention in the licence of BWXT Toronto. I found out about it from a NOW magazine article and it was very upsetting.

I live right at dufferin and bloor and that is very close to Lansdowne! I already have half a thyroid and am extra at risk for radiation impacts.

I would like to know what your emergency plans are and whether you are insured, and if you are doing proper public safety notifications.

After finding out I was drinking water through lead pipes in my neighborhood for the last 8 years, I am about done with being poisoned by Toronto.

This uranium processing plant needs to be shut down before it causes more damage to our health. It is a ticking time bomb.

I am happy to make an oral presentation if I am not working when it is open for discussion: otherwise please consider this my person request and protest.

Sincerely

Nika M  
Shanly St
