Subject: BWXT application renewal, Peterborough, ON

Dear CNSC Regulators,

Please do not renew BWXT'S licence to operate in the old GE plant in Peterborough, ON. I live a stone's throw from the BWXT facility. We know (by BWXT's own reporting) that toxic uranium has been emitted into air and water around the plant. This is a residential area in the heart of Peterborough. Does it make sense to put such an industry here? It does not! You must stop this for the sake of babies, pets, children and adults living and attending school in this neighbourhood!

Thank you

Erin Parker
Peterborough, ON
