RE: Intervention Request to Support the Cameco Blind River Refinery Application to CNSC to Renew its Current Operating License FFOL-3632.00/2022 for a 10-year Operating Period.

To the Members of the Commission,

My name is Andrew Tessier. I am the general manager of Huron Pines Golf and Country Club. More importantly, I am a proud resident of Blind River. Our town, which is in the traditional territories of the Anishnaabeg, has been home to various industries over the decades. That being said, no industry player has shown greater respect for the land and its inhabitants than Cameco Incorporated.

On behalf of Huron Pines Golf and Country Club, I would like to express my gratitude for the professionalism, generosity and keen attention to safety that Cameco has continuously demonstrated since beginning operations here on the North Shore. Furthermore, I would like to acknowledge that they have made every effort to safely contribute to our local and regional economy.

It is clear to me that they have gone to great lengths to set a leading example in nuclear energy, community involvement, and environmental responsibility. I am not an expert in the field of clean energy. I have, however, reviewed their relicensing application. In my humble opinion, it is evident that they will continue to operate at the highest possible standard if given the opportunity.

For that reason, I would like to formally recommend that their license be renewed without reservation.

Respectfully,

Andrew Tessier, General Manager

Huron Pines Golf and Country Club
