Re: Cameco's licence renewal application for the Blind River Refinery (Nov 24-25, 2021 Hearing)

Dear President and Commission Members,

I have been employed with Cameco for 38 years, at the Blind River Refinery for the entire time.

During that time, I have observed the site constantly improving operations to maintain acceptable emissions and to reduce injuries while meeting production requirements.

Cameco's Blind River Refinery has maintained good rapport with the surrounding communities and earned the public's respect. The site has created and participated in many community programs and has encouraged employee participation in the programs.

I can attest from first-hand experience that the site has merited the request for a 10 year license renewal be awarded. Myself, my family and friends support Cameco's request to continue operating at the Blind River Refinery.

It is our hope and recommendation that CNSC award the 10 year licence renewal.

Thank you

Pauline Roy
