Re: Cameco's licence renewal application for the Blind River Refinery (Nov 24-25, 2021 Hearing)

Dear President and Commission Members,

My name is Daniel Roy, I am the president of Leroy Construction we are a construction company based in Blind River. We have been a supplier of the Cameco, Blind River Refinery for 25+ years.

The Blind River Refinery is the world's largest refinery and is located approximately 5 kilometers to the west of the Town of Blind River. Cameco's Blind River Refinery applied to the Canadian Nuclear Commission to renew its operating license for a 10-year period. Cameco's Blind River Refinery has not had an environmental incident during the current license period and monitoring results demonstrate that the Refinery is well below the limits set by regulatory bodies. Cameco's Blind River Refinery supports numerous initiatives in Blind River and the surrounding area, frequently in partnership with community groups and local organizations.

I feel that Cameco's Blind River Refinery should be granted a 10-year license. Cameco's Blind River Refinery is a major employer in our area and does a great deal for our community.

Regards,

Daniel Roy,
President
