To Whom it May Concern,

At the YMCA, we know that by working in partnership we can extend our reach and provide vital programs and services to even more people in our communities. Through partnerships with other community organizations, businesses, and individuals, we are finding new and innovative ways of meeting the needs of the communities we serve.

YMCAs across the country collaborate with hundreds of partner organizations each year on initiatives that have allowed us to expand into new program areas, support under served populations and address critical health and wellness issues.

Through our partnership with Cameco, we join forces with like-minded individuals and organizations with a keen interest in Building Strong Kids, Strong Families and Strong Communities. These partnerships make it possible to share our expertise, knowledge, and resources with each other, and ultimately achieve more than we could alone.

Through the initiatives that YMCA Northumberland and Cameco have partnered on, we have had significant impact in our communities throughout Northumberland County. Together we have helped over 2000 children learn lifesaving water safety skills through the Cameco Swim to Survive program, provided over 1000 safe rides home through the Operation Red Nose Campaign and given 100s of children over the last 5 years the opportunity to participate in the Cameco STEAM Curriculum in our YMCA Summer Camps and Programs.

YMCA Northumberland supports Cameco's application to renew its Cameco Fuel Manufacturing operating licence for a period of 20 years. Not only is Cameco one of the largest employers in Northumberland County but it also has a long history of safe and responsible operations as well as being a champion of community initiatives and projects.

If you require any further information, please contact me at [Eunice.Kirkpatrick@nrt.ymca.ca](mailto:Eunice.Kirkpatrick@nrt.ymca.ca)

Sincerely
