Subject line: Intervention PLNGS Hearing Ref. 2022-H-02

Please consider this email my written intervention to the Canadian Nuclear Safety Commission, regarding the licence renewal of the NB Power Point Lepreau Nuclear Generating Station.

I am a young person whose future will be directly impacted by choosing nuclear over renewables.

My concern is that a nuclear plant thing would not be good and healthy in may of these following things and not only me but so many young people need our voices to be heard about this typical topic so please take it into some consideration for our youth will not justify in not being heard for 25 years!

Please acknowledge receipt of this email goodbye

My name is Tatiana Dedam
