Hello,

Please consider this email my written intervention to the Canadian Nuclear Safety Commission, regarding the licence renewal of the NB Power Point Lepreau Nuclear Generating Station.

I am a parent concerned about the future of my children and leaving them with legacy radioactive waste. I am a holistic nutritionist and am well aware of the consequences this has on both our health, and environment.

We will unite together on this cause until we are successful in our mission to keep our children safe and future generations to come.

Please acknowledge receipt of this email.

Heather Cronk
