SUBJECT: In the matter of Énergie NB Power Point Lepreau Nuclear Generating Station Licence Renewal

To whom it may concern:

Please consider this letter of support as my written submission for the Point Lepreau Nuclear Generating Station Licence Renewal.

This letter is in support of the application from the New Brunswick Power Corporation (NB Power) for the renew of its Nuclear Power Reactor Operating Licence for the Point Lepreau Nuclear Generating Station.

We have confidence in the CNSC and NB Power that an appropriate decision will be made in this regard. We have trust in the CNSC's comprehensive licensing process and know the CNSC staff and commissioners will make an informed decision that is in the best interest of the public.

The Point Lepreau Nuclear Generating Station has generated safe, clean electricity for the people of New Brunswick for close to four decades, and today supplies more than one third of the electricity used in the province.

Regards,

Kathy Bockus

MLA for the riding of Saint Croix
