**RE:** Point Lepreau Operating License Renewal – 2022 H-02

Dear Sir or Madam,

As the Member of Parliament for Tobique-Mactaquac, I am pleased to provide this letter of support for NB Power's application to renew the power reactor operating licence for the Point Lepreau Nuclear Generating Station (PLNGS).

The PLNGS has been producing safe, reliable electricity for the Province of New Brunswick for nearly four decades. It's valued contribution in meeting the Province's energy requirements is obvious in that the generating station presently provides over a third of all the electricity used in the Province of New Brunswick. In addition to being a significant energy provider and employer for the Province, I am also pleased to note that the electricity from Point Lepreau is almost completely free of greenhouse gas emissions.

Thank you for giving due consideration to this license renewal.

Warmest Regards,

Richard Bragdon, M.P.  
Tobique-Mactaquac
