Subject line: Intervention PLNGS Hearing Ref. 2022-H-02

Please consider this email my written intervention to the Canadian Nuclear Safety Commission, regarding the licence renewal of the NB Power Point Lepreau Nuclear Generating Station.

I am a concerned citizen, part of a community who live directly on the Bay of Fundy. A nuclear facility in a sensitive area such as on the shores of our Bay was a poorly planned move to begin with. Has the world forgotten about Fukushima!?! It was a foolish move to build that plant as low to the water as you have, begin plans to end it's use, not expand it. Disgusting!
