RE: Point Lepreau Operating License Renewal - 2022 H-02

Dear Senior Tribunal Officer - Commission Registry

Please accept this letter as my written submission in support for the renewal of the operating license of the Point Lepreau Nuclear Generating Station.

Point Lepreau Nuclear Generating Station plays a major role in providing safe, reliable, low cost and non-emitting electrical generation for businesses and residents of New Brunswick. This facility plays an extreme roll in achieving the reduction of greenhouse gases as well as providing energy independence to our province and region.

Point Lepreau Nuclear Station plays a key role in the economy by providing high value jobs as well as keeping New Brunswick costs competitive to keep existing industries and associated jobs in the province, while bringing in new industries and jobs as well.

Sincerely,

Marcus de Winter, P.Eng.
