Subject: Re: NB Power 25 year Application

Hello,

I am David Cannon, a long-time resident of 23 Emerald Road, Irishtown, NB.

I am asking CNSC to NOT approve the 25 year license application NB Power is requesting for Point Lepreau. That is much too long a time window, and too many unknowns will occur during that time span. Some of those changes may be positive and warrant the closure of Point Lepreau. Others may be negative and justify the cessation of operations at Point Lepreau.

It may well be that within 25 years it will be deemed too risky - due to higher than ever tides, and more violent storms - both of which are anticipated as global warming continues, to continue Point Lepreau. It is certainly something that will be clearer to judge in ten years, as compared to now. Perhaps SMRs will be placed elsewhere, or we will get our electricity from Quebec.

Please do not go from a 5-year license to a 25-year license.

Thank you for your consideration of my concerns.

David Cannon.
