**Subject:** Intervention PLNGS Hearing Ref. 2022-H-02

Good afternoon,

Please consider this email my written intervention to the Canadian Nuclear Safety Commission, regarding the licence renewal of the NB Power Point Lepreau Nuclear Generating Station.

I am a parent concerned about the future of my children and leaving them with legacy radioactive waste and very concerned about radioactive emissions in the event of an accident!

Additionally, I am a young person whose future will be directly impacted by choosing nuclear over renewables. As a member of the public, I'm extremely concerned about nuclear activity in my area and how climate change may impact the facility

We must learn from the mistakes of the past if we want to have any type of sustainable earth left for future generations. Please consider this request and directly acknowledge receipt of this email.

Thank you,

Brittany Carmichael
