RE: Point Lepreau Operating License Renewal – 2022 H-02

I am sending you this letter of support for the Point Lepreau Nuclear Generating Station (PLNGS) License Renewal on behalf of the Town of Grand Bay-Westfield.

The Town of Grand Bay-Westfield is located in southern New Brunswick, in close proximity to PLNGS along the scenic St. John River.

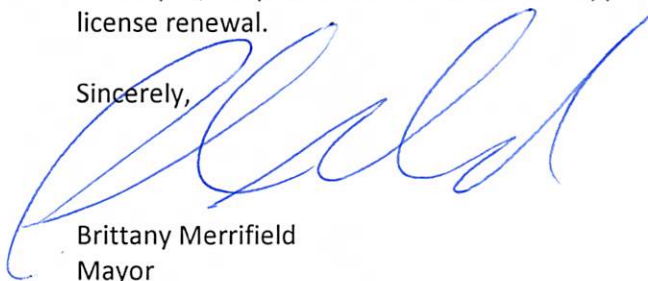

For the purposes of the relicensing review, Point Lepreau Nuclear Generating Station:

- Ensures safety is top priority for station activities;
- Has a highly trained and qualified workforce;
- Has been generating electricity for almost four decades;
- Electricity from Point Lepreau is almost completely free of greenhouse gas emissions;
- Are committed to engagement, outreach and transparent reporting;
- Continuously invites peer review of their safety activities and performance;
- Preventative activities and practice drills are part of their regular activities;
- Has a sustainable plan to manage all waste generated from PLNGS;
- Makes a significant economic and clean energy contribution to the Province.

We trust that you will conduct usual due diligence in reviewing this application, and at the end of the process, will find that the relicensing of PLNGS is the appropriate course to follow.

Thank you, for your consideration of our support for the Point Lepreau Nuclear Generating Station license renewal.

Sincerely,

Brittany Merrifield
Mayor
Town of Grand Bay-Westfield
