Intervention PLNGS Hearing Ref. 2022-H-02

To Whom It May Concern:

I urge you not to grant a 25-year operating licence for the Point Lepreau nuclear generating station. This would set an alarming precedent in light of the facility's many past technical problems and costly shutdowns and repairs.

For 19 years, I have lived near the Bay of Fundy in Saint John. I am part of a citizens group concerned about the adequacy of emergency planning and awareness about emergency response. In general, I am concerned about radioactive nuclear energy and nuclear waste. I am also concerned about ways climate change may impact the Lepreau facility.

I encourage you to provide more frequent such opportunities for members of the public to voice our concerns about Point Lepreau.

Sincerely,
Pat Poole

Living on the unceded territory of the Wəlastəkwiyik (Maliseet) , Mi'kmaq and Passamaquoddy Peoples.
