Subject: Nuclear power plants in the Maritimes

To Whom It May Concern,

I have heard there are applications from NB Power to build/operate nuclear power plants in New Brunswick. I live in Nova Scotia and I am totally opposed to any and all nuclear power plants just as I am against nuclear weapons; there really is no difference when it comes to the possible destruction of all life in our region or anywhere they are used. We already know the danger/fear to life in Ukraine and all of Europe because they have nuclear plants and nuclear waste dump sites throughout the region and all of these sites are simply a second away from being bombed. Humans have proved time after time that we cannot be trusted to have or use weapons/materials of mass destruction, therefore I ask you with all my heart to not allow any more nuclear power plants to be built/operated in New Brunswick or anywhere in Canada.

Sincerely,

Kathleen Henderson
Dean, NS, Canada.
