Subject: Intervention PLNGS Hearing Ref. 2022-H-02

Please consider this email my written intervention to the Canadian Nuclear Safety Commission, regarding the licence renewal of the NB Power Point Lepreau Nuclear Generating Station.

I am a parent of three young children and I am concerned about the future of my children and leaving them with legacy radioactive waste. They also face an uncertain future due to the impact of nuclear energy on climate change, which is already a major global crisis. There are new and more sustainable resources available and we need to adapt to them based on our changing world

Please acknowledge receipt of this email.
