Attention: Ms. Louise Levert, Secretariat

Dear Louise:

**Re: S.R.B. Technologies (Canada) Inc. application for renewal Nuclear Substance Processing Facility Operating Licence**

This letter is written in support of S.R.B. industries in their application to renew their Nuclear Facility Operating Licence.

The Pembroke Fire Department has always had a very close working relationship with Management and staff of S.R.B. Technologies. This relationship is built on a mutual desire to always ensure fire safety for all staff and fire code compliance within the facility.

We provide annual training for all S.R.B. staff in fire prevention and fire extinguisher use. This includes theory as well as practical use of equipment. S.R.B. staff conducts training for our fire fighters in emergency response and containment of the facility.

The Pembroke Fire Department has detailed pre-incident plans for the occupancies of 320 Boundary Rd., Pembroke and we continue to review and upgrade these plans on a regular basis.

The Pembroke Fire Department conducts fire safety inspections annually at the S.R.B. facility using the Ontario Fire Code and N.F.P.A. standards. Recommendations and violations noted during these inspections have always been dealt with in a very timely manner by S.R.B. Technologies.

In October 2021, S.R.B. Technologies partnered with the City of Pembroke and Pembroke Fire Department to coordinate a mock disaster response which met all parties' requirements for emergency management exercises. As noted with past partnerships this provides a great learning opportunity for all our members in regard to duties and responsibilities during an emergency and shows S.R.B.'s commitment to the community.

As a twenty-year member of the Pembroke Fire Department and as Fire Chief during the last year, I have had the opportunity to work hand in hand with the management and staff on a regular basis and have found them to be very diligent in their response to fire safety and regulations, as well as being very community oriented. Their positive attitude towards training all staff members is exceptional and unsurpassed.

Respectfully

A handwritten signature in cursive script, appearing to read "Scott Selle".
