Ms. Candace Salmon  
Commission Registrar  
Canadian Nuclear Safety Commission  
P.O. Box 1046  
280 Slater Street  
OTTAWA, Ontario, K1P 5S9

Dear Ms. Salmon:

**Darlington NGS – Additional Update in Support of the Power Reactor Operating Licence  
Renewal Application**

The purpose of this letter is to submit additional information to the Application for Renewal of the Darlington Nuclear Generating Station (NGS) Power Reactor Operating Licence (PROL) that was submitted in Reference 1 and 2. OPG will appear before the Commission regarding Public Hearing 2025-H-02 on March 26, 2025 for the renewal of the Darlington Nuclear Generating Station (NGS) PROL 13.05/2025 for a 30-year licence term from December 1, 2025 to November 30, 2055.

Through our engagement on the Licence Renewal Application, OPG has received comments from Indigenous Rights Holders and key stakeholders in the host community regarding an interest in continued formal engagement opportunities in front of the Commission during the 30-year licence term for the Darlington NGS.

OPG is committed to ongoing engagement and continuously looks for opportunities to meet the interests of the Indigenous Nations and the communities where we operate. As a result, OPG is supportive of decennial reviews throughout the 30-year licence term, where Rights Holders and the public will have the opportunity to be heard before the Commission.

If you have additional questions, please contact me directly at 905-391-7557.

Sincerely,

Steve Gregoris  
Chief Nuclear Officer  
Ontario Power Generation Inc.
