Re: Support for Renewal of the Darlington NGS Power Reactor  
Operating License

As the Member of Parliament for Bowmanville – Oshawa North, I am writing to express my strong support for the renewal of the Darlington NGS Power Reactor Operating License. The Darlington Nuclear Generating Station is an important pillar of our local economy in Durham Region and the broader Greater Toronto Area which has proven to be effective in job creation, innovation, and supporting Ontario's growing demand for clean and reliable energy sources. I have consistently shared my strong support for the Darlington Nuclear facility in Ottawa, and you can find my statements on this matter publicly available.

I have full confidence that a renewed operating license would provide our community a positive sense of stability as we continue to take pride in the world-renowned innovation and energy generation that takes place here in Clarington. The nuclear industry plays a crucial role in Canada, employing over 89,000 people and contributing \$17 billion to the GDP annually, along with over \$2 billion in labor income and \$2.5 billion in economic activity. Additionally, it generates \$1.5 billion in tax revenue for federal and provincial governments while prioritizing responsible waste management. The positive impact of the Darlington Nuclear Generating Station is seen and felt here in our communities, and we are proud to continue to host one of the world's leading clean energy generating facilities.

The continued presence and operation of the Darlington Nuclear Generating Station would deliver significant economic benefits to Durham Region by creating numerous local jobs and stimulating growth across a variety of businesses in the region. OPG's commitment to partnering with local companies will further enhance economic development, while their ongoing support for community initiatives, such as healthcare and local projects, reflects their dedication to the well-being of Durham residents.

In light of rapidly increasing energy demands, investing in infrastructure like the Darlington Nuclear Generating Station is essential for driving economic growth and supporting local industries. This project not only addresses our energy needs but also fosters job creation and innovation, positioning Durham as a key player in Canada's energy landscape and strengthening our economic resilience.

I strongly urge the Commission to renew the Power Reactor Operating License for the Darlington Nuclear Generating Station. The continued operation of the Darlington site is essential for creating jobs and driving innovation in our region.

Thank you for your attention to this important matter.

Jamil Jivani

Member of Parliament, Bowmanville—Oshawa North
