Commission Members,

Ontario Power Generation is applying to renew the operating license for the Darlington Nuclear Generating Station . . . for thirty (30) years?

A **NUCLEAR REACTOR** . . . the waste from which will continue to be deadly for thousands or millions of years????

Who can possibly, with a clear conscience, predict what conditions or requirements will exist in 2055??

This is astonishing and, in my humble opinion, reckless!

Respectfully submitted,

Elaine Hughes
