## **Re: Support for NexGen's Rook I Project – Request to Participate in Commission Hearing (Part 2)**

To Whom It May Concern,

I am writing on behalf of Nitelazetue Elementary School to express our full support for NexGen's proposed Rook I Project and to confirm our intention to participate in the February 2026 Commission Hearing. Our school has benefited greatly from NexGen's partnership, and we are pleased to provide a written submission of support. At this time, we are prepared to participate through **written submission only**, unless otherwise advised.

NexGen has been an exceptional community partner and has contributed significantly to the well-being of our students, staff, and families. Their involvement in our school goes well beyond standard corporate outreach, they have meaningfully enriched our educational, nutritional, and extracurricular programming.

NexGen has generously brought professional sports teams and athletes, including representatives from the Rush Lacrosse team, the Saskatchewan Roughriders, and the Vancouver Canucks, to our school to run full-day sports programs. These events have created lasting memories for our students and have encouraged healthy, active lifestyles.

In addition, NexGen has invested directly in essential school infrastructure, including upgrades to our school kitchen facilities. Their financial contributions to our breakfast program have been transformative. With their support, we can provide a hot breakfast every day for our students, supported by the salaries of two full-time cooks. This program sets the tone for our students' learning each day, eases the minds of parents, and helps us create a welcoming, stable, and supportive school environment.

NexGen has also played a vital role in our playground fundraising initiative, contributing to long-term improvements that benefit our children and future generations. The working relationships we maintain with Adam, Robert, and the NexGen team are strong, respectful, and highly valued.

Our partnership with NexGen has strengthened our school community and, in turn, our broader community of La Loche. The positive social and economic benefits NexGen has demonstrated locally give us confidence in their commitment to responsible development and meaningful community involvement.

For these reasons, Nitelazetue Elementary School strongly supports the approval of the Rook I Project, and we look forward to continued collaboration with NexGen for the benefit of our students and families.

Thank you for the opportunity to participate in this process. Please feel free to contact me if additional information is required.

Sincerely,

A handwritten signature in black ink, appearing to read "Leanne Gailey-Enns", written in a cursive style.
