**To:** CNSC Public Hearing Review Committee

**Date:** February 9th, 2026

**Re:** CNSC – Part 2 Public Hearing – NexGen Energy Ltd.

Morris Interactive is a proud partner and service provider to NexGen Energy Ltd. They have worked with NexGen over the last 4 years to:

- a. Collaborate on developing and delivering an 8-week pre-employment program specific for Indigenous students from the local priority area. This program has been delivered in Buffalo Narrows, La Loche, Birch Narrows Dene Nation, Clearwater River Dene Nation, and now Buffalo River Dene Nation. This program provides pathways to employment in both the supply chain and NexGen Energy for successful graduates.
- b. Under the guidance of NexGen energy, one of our Associate Consultants , a former CNSC Director with 12 additional years of experience with the IAEA, has also provided regulatory advice to the Rook I team. Plus prepared some key technical modules of our Career Training course for the local impact communities.

We have witnessed the commitment to doing things the right way, the relationship building in the communities and passion present within the NexGen Energy team, the communities and stakeholders that we have interacted over the last 4 years. This ongoing commitment and focus is building toward the positive social and economic change that this project, and other related resource development, can provide to the region through their commitment to sustainable, responsible development with an eye on shared success.

With that being said, we are a supporter of the NexGen Rook 1 project and recommend that the project move forward. We humbly ask to provide an oral presentation on February 9<sup>th</sup>, 2026 in Saskatoon, SK. Thanks for your consideration.

Sincerely,

Mathew Cey, CEO
