Formal Statement of Community Issues Regarding N – 19 Fur Block

To: Justin McKeown

I am writing on behalf of the Traditional Trappers and Harvesters of the N – 19 Fur Block. We deeply appreciate your openness to meeting with us and hearing the concerns we have about our community and the preservation of our way of life.

Overview of Issues

Our community has discussed several matters that we believe are important for your office to consider. We hope these concerns will be given thoughtful consideration and, ultimately, resolution.

Matters for Discussion

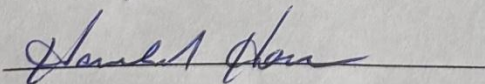

Outlined below are the key issues that have been raised and discussed among our members. We are committed to working collaboratively to find solutions that honor our traditions and sustain our livelihoods.

- To date, there has been no consultation with us, the traditional land users. We feel our voices and perspectives have not been included in decisions affecting our lands.
- We have not received any correspondence from NexGen Energy Ltd. up to this date, which has contributed to a sense of exclusion from important discussions and developments.
- Our land users have concerns regarding the protection of habitat, both on land and in water. Safeguarding these environments is essential for the continued practice of our traditional activities and for the wellbeing of our community.

We respectfully request that you prioritize these concerns and work with us toward meaningful engagement and solutions. Our community stands ready to collaborate in protecting our shared environment and supporting the continuation of our traditions.

Thank you for your attention to these matters. We look forward to meeting with you to building a constructive relationship for the benefit of all.

Sincerely,

President, Harold Herman

Traditional Trappers & Harvesters
Of
Fur Block N – 19

To whom it may concern;

The motion was made and passed by the board above the Harold Herman (President)
and Daniel Montgrand (Spokesperson).

They will attend the meeting being held in Saskatoon by the CNSC to represent us and thus
present our concerns.

Harold Herman
