

Request for Confidentiality of Material Submitted in Relation to

Chalk River Laboratories 2028 Licence Renewal Application CMD: TBD

This form supports the [Directive on Requesting Confidentiality](#). Review the Directive for important information about completing this form and the documents that must be submitted with it.

The completed form and attachments **must be submitted to** the [Commission Registrar](#).

With regard to: **Chalk River Laboratories 2028 Licence Renewal Application**

I, **John Osborne**, am an authorized representative of Canadian Nuclear Laboratories. I understand that:

- material provided to the Canadian Nuclear Safety Commission (“the Commission”) as part of a public hearing will be made publicly available unless the Commission makes a decision to protect it; and
- regardless of any request for confidentiality and decision by the Commission, the material may be disclosed if the Commission is required by law to disclose it (for example, after a request under the [Access to Information Act](#)).

I hereby request that the Commission take measures to prohibit the publication and disclosure of the following information under rule 12 of the [Canadian Nuclear Safety Commission Rules of Procedure](#) (the Rules).

NOTE 1: Any additional protective measures being requested must be identified in a letter attached to this form.

Material for which a request for confidentiality is submitted:

The material that is subject to this request for confidentiality is clearly identified in Table 1, below.

NOTE 2: Where the request for confidentiality applies only to part of a document, relevant portions must be clearly identified “CONFIDENTIAL” to distinguish them from content that is non-confidential.

NOTE 3: The Commission is not responsible for any copyright infringement due to its publication on the CNSC website of documents that have been written by a third party.

7.	CRL Radioactive Effluent and Emissions Verification Monitoring Plan	☐ Entire content ☒ Redacted content as clearly identified in the document	☐ The information involves national or nuclear security elements ☐ The information pertains to Indigenous Knowledge The information is: ☐ Financial, ☐ Commercial, ☐ Scientific, ☐ Technical, ☐ Personal, or ☒ Other (specify), and ☒ Is consistently treated as confidential Or: ☐ Disclosure of the information would likely endanger the life, liberty, or security of a person or person(s)	Building numbers have been redacted to minimize the risk of unintended disclosure of locations of sensitive material or operations. While seemingly low risk on their own, such identifiers can be combined with other information and removing this data ensures we uphold our obligation to safeguard sensitive material. Additionally for this reason, building numbers and detailed names of locations on maps have been redacted. Assessment Tables related to nuclear facilities have also been redacted as the information may be used to deduce quantities of nuclear material. This information could present potential security risks if disclosed.
8.	Chalk River Laboratories Overview Decommissioning and Cleanup Plan (ODCP)	☐ Entire content ☒ Redacted content as clearly identified in the document	☐ The information involves national or nuclear security elements ☐ The information pertains to Indigenous Knowledge The information is: ☐ Financial, ☐ Commercial, ☐ Scientific, ☐ Technical, ☐ Personal, or ☒ Other (specify), and ☒ Is consistently treated as confidential and the person affected has not consented to disclosure. Or: ☐ Disclosure of the information would likely endanger the life, liberty, or security of a person or person(s)	This document contains information related to nuclear facility site layout, infrastructure details, hazard assessments, radiological source terms and accident scenarios that could pose security risks if disclosed. This information if released could compromise the effectiveness of emergency preparedness and response by exposing resource capabilities and responses. The complete document is not intended for distribution. Summary: The Chalk River Laboratories (CRL) Emergency Response Plan is designed to support operations at the CRL site to prepare for, respond to, and recover from emergency situations that are beyond the day-to-day operations of on-site emergency response services.

Attestation:

1. I confirm that the above-noted material is not available through any public sources.
2. I have attached a **summary** or **redacted** version of the material that minimally impairs the public nature of this proceeding.
3. I understand that if this request is not approved by the Commission, I will have the option of withdrawing the material.
4. I further understand that if the material is not withdrawn it will be part of the public record as per rule 15 of the Rules.
5. I understand that upon receipt of this request, the Commission Registrar will treat the material that is subject to this request as confidential unless and until the Commission makes a ruling.
