Subject: Written Intervention regarding the hearing for BWXT Peterborough - From Roy Brady, Peterborough ON

EXTERNAL EMAIL – USE CAUTION / COURRIEL EXTERNE – FAITES PREUVE DE PRUDENCE

I am making a written submission and not requesting oral intervention at the Hearing. I am especially concerned, and alarmed, that the license review and extension is being presented as a 'fait accompli' despite serious health and neighbourhood objections. The primary reason for rejection from CNSC is the presence of BWXT within a large residential neighbourhood. Even further, within metres from this unfortunate site is an elementary school, as has been pointed out at the hearing six years ago. Even the slight risk of toxin release and small doses of radiation is too great for exposure to children whose bodies and cell development are still in growth stage. Their promising future could be at risk through no fault of their own and without any representation of their interests.

People were stunned and shocked - then - still - that the CNSC representative stated that LOCATION is not within the jurisdiction of CNSC. What !!! CNSC is a Regulator whose essential purpose, hopefully, is to protect residents, particularly if they reside nearby. That serious illnesses from 'gradual' residential exposure has been ignored remains unacceptable.

Please review the extension of BWXT's license, particularly in the deeply sensitive location. And please give full and serious attention to the concerned intervenors this month.

Please indicate that you have received my intervention. I duly invite your response to it.

Roy Brady, Peterborough ON,
