Subject: BWXT facility in Peterborough

EXTERNAL EMAIL – USE CAUTION / COURRIEL EXTERNE – FAITES PREUVE DE PRUDENCE

To whom it may concern:

In terms of potential expansion of BWXT's operations, I have three main concerns:

- 1) that children will be exposed to increased levels of radiation.
- 2) unanswered questions regarding beryllium releases at the MWXT facility.
- 3) independent sampling and analysis is not taking place, but there is a reliance on BWXT's own data.

This facility is operating right near an elementary school and in the middle of a large residential neighbourhood. It is illogical and dangerous to expand operations at such a site.

Thank you for your care in this matter.

Barbara Chisholm
