Mai 2026

It is with pleasure that I provide this written submission on behalf of the Rotary Club of Peterborough highlighting the impactful support of the BWXT within our community.

The BWXT provided financial support in May 2025, for the Rotary Environmental Innovators Fund project in 2025. The REIF project aims to identify, fund and elevate local environmental innovators in the areas of climate action, energy efficiency, land and water conservation, waste reduction and more.

In October 2025, the BWXT team provided an informative speaking presentation to the Rotary Club members and community guests on the topic of “Empowering the Future: BWXT Nuclear Energy Canada’s Commitment to Innovation, Safety and Community.”

In February, the BWXT also hosted Rotary Club members on a guided tour of their 1160 Monaghan Road where they showcased the manufacturing of CANDU® fuel bundles and engineer and fabricate reactor tooling for nuclear power stations in Canada.

More recently, the BWXT offered a generous donation to the Rotary Accessible Playground Project at Peterborough’s iconic Riverview Park & Zoo, helping our Rotary Club to further reach our goal of providing a playground where people of all ages and abilities are welcomed, included and inspired to play, explore, and grow.
