Program

September 2018

On April 30, 2018, the Canadian Nuclear Safety Commission (CNSC) announced that it was offering a total of \$35,000 under its Participant Funding Program (PFP) to assist members of the public, Indigenous peoples and stakeholders in reviewing CNSC staff's *Regulatory Oversight Report for Canadian Nuclear Power Generating Sites: 2017* (2017 NPGS Report), and submitting written comments to the Commission. The deadline for submitting participant funding applications to the CNSC was June 29, 2018.

## Background

Participant funding was made available by the CNSC:

- to help stakeholders provide new, distinctive and valuable information to the Commission through informed and topic-specific interventions
- to assist interested parties in reviewing CNSC staff's 2017 NPGS Report and submitting written comments to the Commission

A Funding Review Committee (FRC), independent from the CNSC, was established to review the funding applications received by the CNSC's PFP administrator, and to make recommendations on the allocation of up to \$35,000 for eligible applicants.

The FRC members were:

- Paul Scott, retired regional director of the Canadian Environmental Assessment Agency's Vancouver office
- Bruce Young, retired Canadian Environmental Assessment Agency director
- Steve Burgess, retired Canadian Environmental Assessment Agency director

The CNSC received two PFP applications requesting a total of \$13,646.15, and these applications were reviewed by the FRC on August 14, 2018.
